

In 2014 I made the decision to pursue the opportunity to help found Laureate Academy Charter School. I excitedly joined the team as the Founding Operations Manager in 2015. Since then I have been dedicated to fulfilling the mission of

serving all scholars and preparing them for school and life success. Over these past years I learned so much from everyone at Laureate: staff, families and scholars. I am eternally grateful for all the relationships, knowledge and pure love I have received over the years.

Although this decision did not come lightly, I have always longed to expand my reach beyond the realm of education. This fall I was presented with an amazing opportunity that will allow me to grow my career, while still continuing to do work that is very close to my heart. Beginning March 2021 I will start a journey with a new organization.

Although this is a bittersweet goodbye, I am excited to take everything the Laureate community has gifted me with me on this new adventure. I have included my personal email below, as I'd love to keep in touch and will always welcome updates on how scholars are doing.

From the bottom of my heart thank you.

A handwritten signature in black ink.
